

Thanks for your interest in our NIH grantsmanship webinars. The webinars are designed to educate participants about NIH grant applications with the goal of improving overall grantsmanship of individuals. This ensures that they improve the quality not of a single submission, but of all submissions going forward, whether to NIH or other funding organizations; and ensures that they are better reviewers and mentors to their colleagues. The overarching goal is to increase the NIH funding portfolio at their institutions.

All faculty, staff, and administrators will have unlimited access to all webinars available through Meg Bouvier Medical Writing LLC through February 7, 2017. This includes current and future offerings during the contract period, live or on demand.

Please note that access is solely for faculty, staff, and administrators at ASU. No webinar materials (including but not limited to recordings, PDFs of slidedecks, or handouts) may be used in part or whole outside of ASU. The recordings may not be copied, sold, or distributed. They may be streamed internally, but may not be stored internally at ASU; Viewers will access the webinars and associated materials through the Meg Bouvier Medical Writing LLC website.

In order to watch or register for upcoming webinars please follow the directions below. Visit <http://megbouvier.com/webinars/>.

You must register for each webinar separately by either selecting **Register Now** or **View on demand now**

The screenshot shows the 'Webinars' page on the Meg Bouvier Medical Writing website. The navigation bar includes Home, Services, Webinars, Training, Endorsements, About, Blog, Resources, and Contact. The main content area lists several webinars with their titles, descriptions, and registration options. Two yellow arrows point to the 'Register now' and 'View on demand now' buttons for the 'Demystifying the 2016 Changes to NIH Grant Submissions' webinar.

Would a Short Course on NIH Grantsmanship be helpful to you?

In an effort to provide cost-effective training to the broadest group possible, Dr. Bouvier has created a series of webinars. Learn from a successful grantwriter who writes, edits, and advises on NIH submissions full time. Dr. Bouvier has helped her clients land over \$200 million in federal funds in the past five years. She will share her knowledge and expertise in these webinars.
